Spain is not difficult. It's different.

Understanding how the two systems differ, and why some differences surprise buyers for better and for worse, is what turns the dream into a plan.

Our job: translate the Spanish system for your client — before they commit to anything.

WHAT A SPAIN PROJECT REALLY INVOLVES

One project. Many moving pieces.

Financing	Life project	Financial capacity	Property
Purchase structure	Residency	Tax	Legal coordination
Valuation	Currency	Banks	Notary
Documents	Timing	Professionals	...until the keys

We work alongside the professionals around your client.

We are here to make the whole project work together.

Lawyer, tax advisor, bank, notary, REALTOR®: everyone keeps their role. We make sure they pull in the same direction.

Two buyers walk into Spain...

For many of your clients, Spain is simply the best place to live. Same country, same market, two very different strategies.

"I want to LIVE in Spain."

Relocation · retirement · remote work · family · study · a new chapter

Questions: visas, residency, EU passport, tax, schools and universities, financing a main home

"I want to OWN in Spain."

Second home · holidays · investment · legacy · future retirement · rental

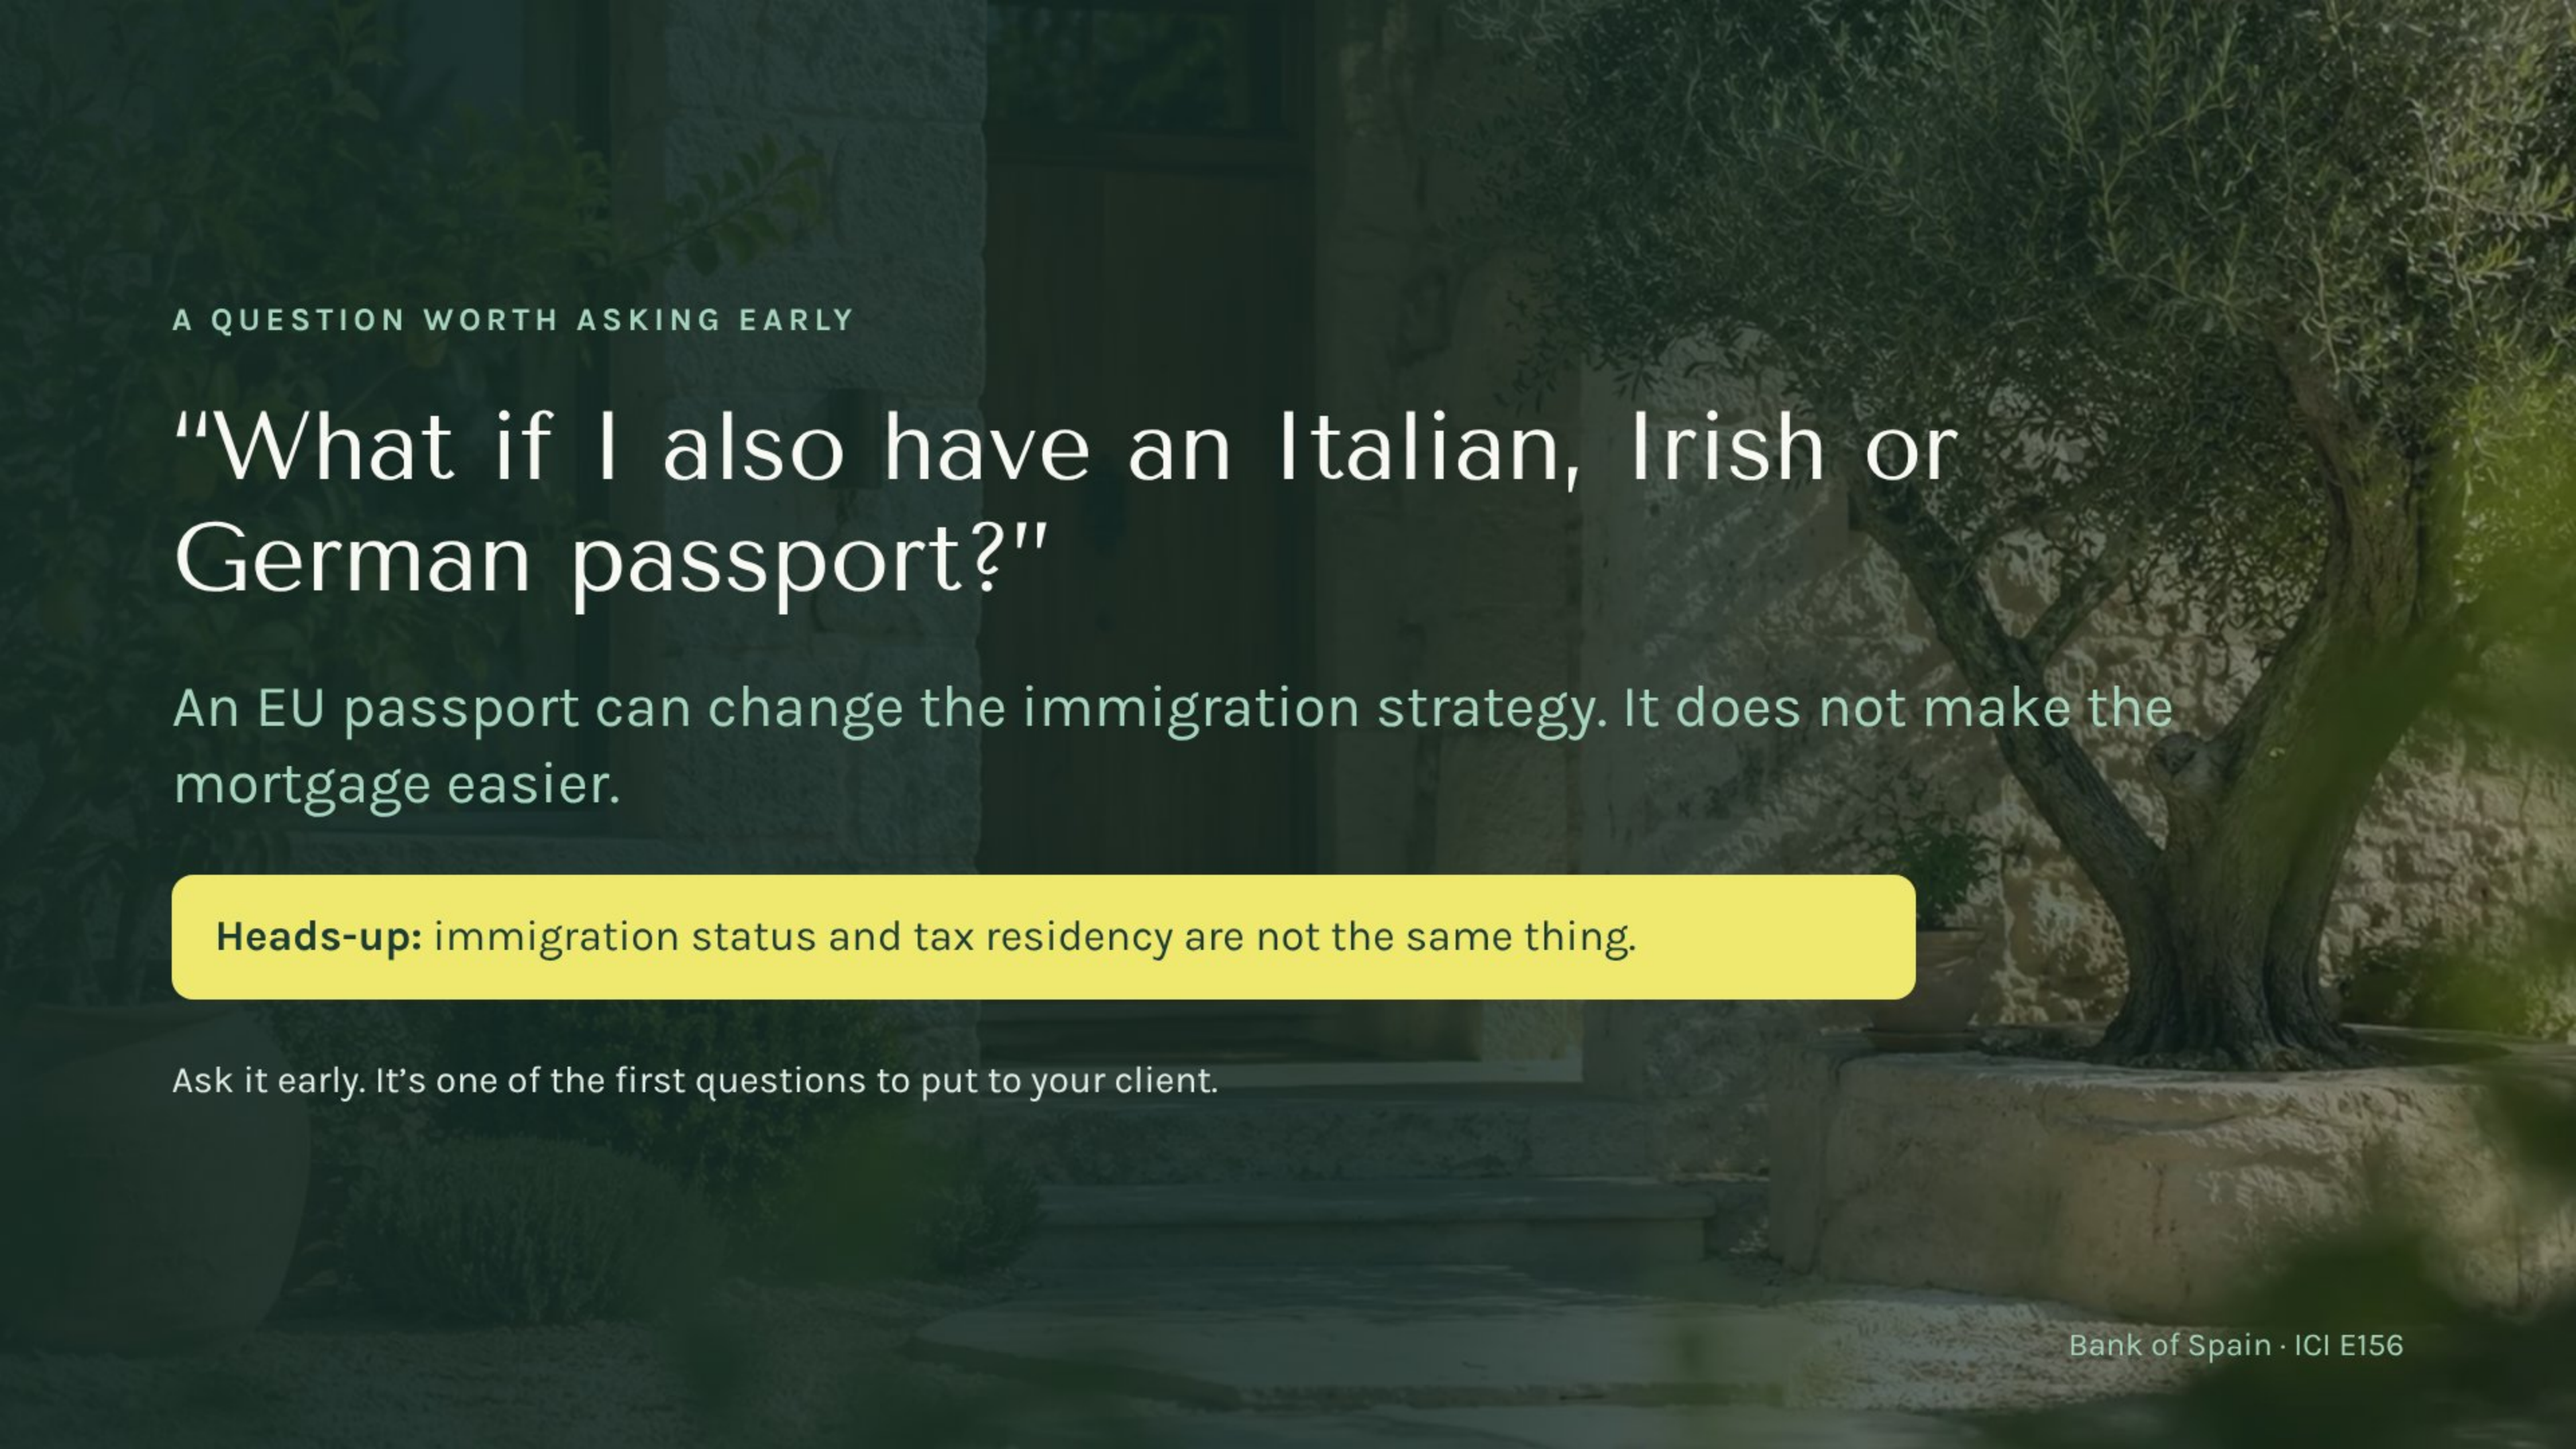

Questions: second-home financing, cash contribution, taxes, rental, upkeep, currency, management

THE QUESTION EVERY CLIENT ASKS

Do you need to be an EU citizen, or have a visa?

To buy a property in Spain	No	You will need an NIE, the identification number for foreigners.
To get a Spanish mortgage	No	A passport or visa does not make the mortgage easier. The bank looks at income, stability and the use of the home.
To live in Spain	Yes	An EU passport, or the right visa or permit.

Buying and living are two separate questions. Plan both from the start.

A QUESTION WORTH ASKING EARLY

"What if I also have an Italian, Irish or German passport?"

An EU passport can change the immigration strategy. It does not make the mortgage easier.

Heads-up: immigration status and tax residency are not the same thing.

Ask it early. It's one of the first questions to put to your client.

STRATEGY, NOT PAPERWORK

A passport doesn't open the bank's door. Stability does.

01

Two separate projects

Buying with a mortgage runs on its own track. Residency and visas are a parallel project, with their own professionals and paperwork.

02

What moves the bank: the use

Main home or second home. A resident buying a main home can reach a higher LTV, even with income from abroad.

03

Resident means living here

A bank treats the client as resident once they already live in Spain. Change job, company or career path, and it may want 2–3 tax years again.

Often the smart move: buy and finance before moving to Spain.

VISAS AND RESIDENCY · 1 OF 2 · TO LIVE IN SPAIN

Different doors into Spain

ROUTE	KEY REQUIREMENT	LEGAL DEADLINE	PERMIT	WORK

TAX · FOR THOSE WHO MOVE

The Beckham law: a special regime for newcomers

WHO

Employees and remote workers (incl. digital nomads), company directors, ENISA entrepreneurs, highly qualified profiles. Spouse and children under 25 can join.

CONDITION

Not tax resident in Spain in the previous 5 years. Opt in within 6 months of starting work (modelo 149).

DURATION

The year of arrival plus the next 5 years.

HOW IT TAXES

24% on work income up to €600,000 · 47% above. Spanish savings income 19–30%. Foreign passive income not taxed in Spain. Wealth tax only on Spanish assets.

It changes the tax, not the income: the bank still wants stable, documented income.

Art. 93 LIRPF (Ley 28/2022), RIRPF arts. 113–120, Ley 7/2024 (savings rates since 2025), AEAT. Checked 26 Oct 2026. Plan it with a cross-border tax specialist before the move.

THE FAMILY ROUTE

It often starts with: “Our daughter is studying in Spain."

1 They visit

2 They rent

3 They compare renting with buying

4 They spend more and more time here

5 They consider a property

6 One day, part of the year in Spain

Spain isn’t only a retirement destination. It’s education, family, remote work, lifestyle, investment — and the future.

BEFORE CHOOSING A PROPERTY

What to anticipate, so nothing is signed too early

- Check financing first: it sets the real budget
- Total cash: price, purchase costs and a reserve
- Valuation risk, before signing arras
- Documents ready: ID, income, bank statements
- Apply for the NIE early
- A recent nota simple: owner and any charges
- The timeline from arras to the notary
- Who signs: in person, or with a power of attorney

THE SPANISH BANKING SYSTEM

A great borrower at home is not automatically a great Spanish mortgage file.

A small number of very large banks

Highly centralized decisions

Structured internal risk models

Fewer banks truly interested in international profiles

Even fewer for some non-residents and complex profiles

WHAT WE READ BEFORE ANY BANK DOES

Building the file a Spanish bank can understand

Income in dollars

Employment type

Assets

Debts

Tax position

Currency

Use of the home

Age

Purchase structure

Real risk

Which lenders
may accept this profile — and which won't even look.

How to present it
so the bank sees the real stability behind the numbers.

FIVE NUMBERS WORTH REMEMBERING

What a Spanish bank usually looks at

~80%

Main home, in many cases

~70%

Second homes and investment, usually

30—35%

Debt-to-income, by bank and profile

20—25

Years: the usual mortgage term

75—80

Typical maximum age when the loan ends

General references only. Every bank applies its own analysis. Always subject to bank assessment.

THE SURPRISE NOBODY BUDGETS FOR

Purchase price ≠ valuation

PROPERTY PRICE

€600,000

≠

BANK VALUATION

€ ?

Banks lend against the lower of the purchase price or the valuation.

If the valuation comes in lower, your client covers the gap in cash.

The €500,000 home that doesn't cost €500,000

How much cash does this buyer actually need?

It depends on...

- Main or second home
- Financing %
- Region
- Taxes
- New build or resale
- Purchase costs
- Valuation
- Professional fees
- Cash reserve
- Exchange rate

The property price is only one part of the project.

COMMON MISTAKES · 1 OF 2

The mistakes we see every week

“I’ll find the property first and figure out financing later.”

“My bank in the US says I’m a great client, so Spain won’t be an issue.”

“If it costs €600,000, the valuation will obviously be €600,000.”

“I have enough for the down payment, so I’m fine.”

“The agent told me the mortgage will be fine.”

Every one of these is fixable — if someone catches it before signing.

COMMON MISTAKES · 2 OF 2

And a few more

“I’ll sign the reservation now and deal with everything later.”

“I’ll just use my bank.”

“The lowest interest rate must be the best mortgage.”

“If I buy a property, I can automatically live in Spain.”

“With an EU passport or a visa, the mortgage will be easier.”

“I’ll move first and get the mortgage once I’m resident.”

Clarity before commitment.
